

Enrollment Package

Step 1: Go to <http://bit.ly/webctlogin>

Click on “**Browser Check**” (top right) & download necessary plug-ins & turn off pop up blocker.

Enter the following - **Username:** activation **Password:** learn

- Click on “**SD68 Welcome to Learn@Home**”
- Click on blue backpack called, **Learn@Home Courses**
- Read, view and complete parts 1-11 online. Keep for your reference.

Click on “**12: Activation Assignments**”, Click on grade, click on course.

- Print and do this activation assignment for course/s you are interested in taking.
- Logout

Step 2: Complete Attached Registration Page

Copy and attach one piece of official Identification:

- Birth certificate, status card, driver's license or passport

Step 3: Start your course in one of 3 ways:

1. Email your Learn@Home teacher: **Your full name, school, email, cell #, home #, parent(s) name(s), cell #, and email.** Be sure to attach or send your registration and first assignment work & cover page via school courier, email, fax or in person. Your teacher will send you a login, password and books. Teacher emails are on the back of this page.
2. Email all the above to Connie at cthyssen@sd68.bc.ca Connie will forward to your teacher so s/he may send you course start information.
3. Call or email Connie at 250-740-2038 or cthyssen@sd68.bc.ca to make an appointment to meet with your teacher, submit your work, and receive course information.

LEARN @ HOME

Dear Students and Parents,

Thank you for choosing to learn online with Learn@Home. More than ever, students are choosing to take one or more courses online. This allows students to hone their online skills, and learn discipline needed for professional life. It is a student-centered, 24/7, 11 months of the year, efficient, interactive, and personalized way to learn. We blend online learning with face to face support so students can replay lessons and meet with their teachers in personalized venues of face to face meetings, phone and email. Students can choose the time of day when they are the freshest using the style in which they learn best. They can learn at home, or in our learning labs. Online learning prepares students for real world challenges.

The Learn@Home teachers, parents and students form a close partnership to support student learning and successful course completion. Teachers communicate mostly by email and grade updates are sent regularly. Parents and students are encouraged to set, track, and support daily and weekly goals so courses can be completed on time or ahead of schedule if desired.

In an online course, more than ever, your involvement will be key to your son/daughter's success. We encourage you to check your email regularly, and use the following tools daily or weekly to work with teachers to ensure your child successfully completes their course:

www.jupitergrades.net – Link sent by teachers to all parents and students immediately upon enrollment. Set it up so you are sent weekly updates, or simply updates only when work is missing. Be sure to click on the name of the subject to see course assignments, marks, and feedback to ensure your son/daughter is handing in work weekly.

www.facebook.com/lah812 – “Like” our page to stay abreast of all opportunities, news, and events.

www.learnnowbc.com – Live Tutors Sun – Thur from 6pm – 10pm. There is also video help in Math and Science.

www.khanacademy.com – Free online tutorials in math and science

Learn@Home-CTC Tower – Visit our learning labs to work or ask for extra assistance.

We wish you and your son/daughter much success in this exciting endeavor at online learning with Learn@Home. Please call or make an appointment if there is any way we can help further.

Yours sincerely,

Kim Hart

District Vice Principal of Learning Alternatives
